SUMMARY

Computer Science undergraduate with hands-on experience in software engineering and full-stack development, specializing in building, testing, and deploying scalable applications. Skilled in clean code practices, performance optimization, and responsive UI/UX design, with expertise in agile development, API integration, and secure authentication systems.

TECHNICAL SKILLS

- **Frontend:** Next.js, React.js, Tailwind CSS
- **Backend:** Node.js, Express.js, NestJS, Spring Boot
- **Database:** MongoDB, PostgreSQL, Firebase
- **Programming Languages:** Java, JavaScript, Python, C#
- **Tools & Platforms:** Git, GitHub, Postman, VS Code
- **Game Development:** Unity (C#)
- **Methodologies:** Agile, Scrum, SDLC
- **Others:** REST APIs, JSON, JWT, Cloudinary, CASL

OTHER SKILLS

- Problem-Solving & Analytical Thinking
- Logical Reasoning and Decision-Making
- Clean Code Practices & Efficient Debugging Techniques
- Time Management and Task Prioritization
- Proficient in Data Structures & Algorithms (DSA) using Java

WORK EXPERIENCE

Software Developer Intern, StuFit, Lucknow

1st July 2025 – Ongoing

- Developed and maintained full-stack healthcare web applications using Next.js, NestJS, CASL, and JWT, enabling secure role-based access for 500+ users.
- Implemented authentication protocols, security best practices, and API validation, improving overall system security by 20%.
- Conducted penetration testing and risk assessments, identified and resolved critical vulnerabilities, ensuring 100% compliance with data protection regulations.

PROJECT

MindWare – Mental health Assessment Web Application

[Live Link](#)

Tech Stack: React.js, Node.js, MongoDB, OpenRouter API, JWT, Chart.js

- Developed a responsive mental health platform with secure authentication, progress tracking, and analytics using Chart.js.
- Integrated OpenRouter API to build an AI chatbot for personalized wellness guidance.
- Secured backend with JWT, optimized MongoDB, and ensured mobile responsiveness.
- Followed Agile methodology for iterative development and timely tracking.

EDUCATION

B.Tech in Computer Science & Engineering with Specialization in AI

Nov 2022 – Present

University of Lucknow

- SGPA obtained in the previous semester: 9.08
- Relevant coursework in Computer Science and Artificial Intelligence

ADDITIONAL INFORMATION

- **Languages:** English (Fluent), Hindi (Native)
- **Certifications:** Prompt Engineering – OpenAI; Full Stack Development – MERN
- **Awards/Activities:** GitHub Developer Program – Pro Badge; Google Cloud Innovator; Google Maps Platform Innovator; Member – Tech Equity Collective by Google for Developers
